REMAINDER OF PABLO HERD COMING IN APRIL

Shipment Delayed by Montana Authorities Outlaw Bulls Killed by Homesteaders

There will be delivered into the custody of Howard Douglas, commissioner of Dominion parks, at Edmonton, next April, the balance of 60 head of buffalo from the Pablo herd in Montana, which are still due the Dominion government under their contract with Pablo. Shipment of these buffalo have been delayed some months ago by the action of the Montana game authorities, in preventing a buffalo hunt which was to have killed off several old outlaw bulls in the herd.

"We are confident that we will be able to ship the balance of the buffalo in April," said Howard Douglas, the commissioner, who has just returned from an extensive trip into California and Mexico.

The outlaw bulls were all killed off by homesteaders, and it will now be possible to round up the herd and ship them, to Edmonton. The buffalo are to be taken to Wainwright. This will increase the number of the herd at Wainwright to over 800. There are also to be shipped a number of the Couesud herd from Montana.

"We were within twenty-four hours of the shipment to Mexico," said Douglas. He formed one of the big party of Edmonton people who took in the trip to points in Oregon and California.

MARKET LESSEES AGREE TO GIVE UP CONTROL

Kelly and Elmes Annul Agreement With City This Morning—Will End Strife Between the City and the Farmers

The end of the strife between the city council and the farming community is at last in sight. This morning the lessees of the market sites agreed to give up their leases and the control of the hay market and the rice street market will revert to the city.

Kelly and Elmes, who rented the market from the city shortly after the passage of the new market bylaws, agreed this morning to give up the contract for the sum of \$75, and their control will come to an end on Saturday night.

The keys of the market building will be handed over to the city authorities on Monday morning. The agreement was arrived at after a meeting between Messrs. Kelly and Elmes, the market committee (Ald. Gowan, Lundy, McKinley), and the commissioners, in the commissioners' offices this morning. The city will pay the telephone and electric bills which have been incurred since the markets were rented.

Kelly and Elmes leased the markets from the city on February 1, for a term of twelve months, for the sum of \$75.00. Immediately on their taking possession, there was an offer from the farmers, in regard to the market fees imposed under the terms of the new bylaws. The farmers objected to compulsory weighing of produce, and had a large number of complaints to make as to the character of the new regulations. Willing to make concessions to the farmers, the market committee was in a quandary as to how to proceed. The agreement with the lessees, and were powerless to make any changes in the by-law which would in any way effect the results from the market fees.

With the market under the control of the city, it will be possible to resume negotiations to meet the wishes of the farmers, so far as this may be possible. Ald. Gowan stated this morning that it is improbable that the farmers will be given all for which they ask, but an arrangement may be arrived at whereby their wishes may be met in regard to many of the regulations.

PROV. BUILDERS MEET IN CALGARY

Annual Convention of Alberta Exchange Will be Held on First of April.

The annual convention of the Alberta provincial association of builders exchanges is to be held in Calgary on April 1st. Delegates are to go from the Edmonton exchange, also from Red Deer, Lethbridge, Medicine Hat, and other points in the province.

Following the convention the annual banquet of the Edmonton exchange will be held on April 2nd, at the Hotel McLeod. Delegates will be present from the above cities.

At the regular meeting of the Edmonton exchange held last evening, Secretary Wetmore, in a report of the recent big convention of the National association in Winnipeg. He reported that the convention was a decided success in every respect. He had emphasized on the fact that the first time in the history of the national body, having one of the Alberta representatives elected to the chair of vice-president.

ALASKA WOULD JOIN DOMINION

Montreal, March 2.—The addition of another province to the Dominion is the idea that L. B. McCauley, managing director of the Sun Life Assurance Company, brings back with him on returning to this city after a visit to the West Indies.

The meeting which took place in the Bahamas Islands on the 20th of last month was, Mr. McCauley states, one of the greatest successes. The delegates, who were in the streets and on the day of the meeting to take the question of making Canada take them under her wing.

Although there were no official representatives from Canada at the gathering of 20,000 people, there were on the platform and among the speakers several gentlemen well known in Canadian life. Mr. McCauley, A. B. Le Roy McDonald, Mayor of Ricard, Ontario, Mr. Nicholson, of Winnipeg, and Judge McIntyre, of Whistler, Ontario.

ORGANIZE FAIR MANAGERS' ASS'N

Convention of Western Managers Will be Held in Regina March 23rd—Edmonton to Have Delegate.

The first steps towards the organization for their mutual benefit and protection, of a western fair managers' association, will be taken at a convention called for Regina on March 23rd, and managers of western fairs, managed by Manager A. G. Harrison of the Edmonton association, this morning.

The movement for this organization has been going forward for some time, and it is likely that Edmonton will be represented at the convention by Harrison, who is in accord with the scheme.

One of the objects of the organization will be to fix future years to get together on the matter of schedules of dates for the annual exhibitions. All the cities and large towns in the west have been invited to join the movement.

Other matters which will be discussed at the convention are the advisability of doing away with free passes, the question as to whether provincial governments are justified in furnishing exhibits at the provincial fairs, the question as to whether fair directors should be exhibitors at their own fairs, and the question of provincial aid, and also the question of protection against carpet baggers.

REFUNDED MONEY FOR PUBLICITY

Edison People Will Spend \$5,000 They Got Back From Government in Advertising Their Town.

Five thousand dollars which they raised to build a road towards Grande Prairie, and which was refunded to them, the provincial government will be expended by the energetic citizens of Edison, on the G. T. P. this year, in publicity work.

Several months ago, the citizens of Edison, in the north-western corner of the road from Medicine Lodge towards Grande Prairie, built by the government was until, travel, raised by public subscription the amount of \$5,000 to build a road of their own. That road was built and it joins the Medicine Lodge trail at its end.

Some days ago a delegation from the Edison board of trade, and the village council, came to Premier Sifton and asked him to take over their road. The premier consented, and promised a refund of the money.

This money, the citizens have decided, will be spent in publicity. Edison is one of the towns that will be invited to join the big Central Alberta movement, and they will probably be prepared to do this year.

CUSTOMS RECEIPTS

Ottawa, March 2.—Customs returns for Canada for February are \$5,990,983, an increase of \$815,259 over February of last year. For the first eleven months of the current year the customs revenue has been \$48,808,391, an increase over the last eleven months of 1910-11.

LORIMER TO RETAIN HIS SEAT IN SENATE

Washington, March 2.—William Lorimer, of Illinois, retains his seat in the United States Senate, a vote of 45 to 40 that today today defeated the resolution introduced by Senator Beveridge declaring that the junior senator from Illinois had not been elected by first degree murder.

COURT CONTINUES INJUNCTION UNTIL MARCH 15TH, WHEN ACTION COMES UP FOR TRIAL—PARTIES REACH AGREEMENT

In respect to the application of C. Gallagher for a permanent injunction against the mayor and council and the city of Edmonton, to restrain the council from discharging Commissioner Bouillon, an agreement has been reached between the counsel for the plaintiff and defence to the effect that the injunction shall be continued until after the trial of the case but that the trial shall take place on March 15th. Had the preliminary trial in chambers taken place tomorrow, the case could not have come up for final trial until the April court.

The agreement between the parties was approved by Mr. Justice Beck this morning.

It is considered advisable that the injunction be continued until the final trial, in part on account of the unsatisfactory nature of the affidavits of the plaintiff, in which beliefs, suggestions and opinions are given which will be inadmissible at the trial. Even if the affidavits were put in tomorrow, and the injunction continued until the trial, the action could not finally be tried until the April court. Moreover, the city under the new arrangement need not disclose its defence under oath in a binding manner until the trial.

In accordance with this agreement, the defence will file no affidavits tomorrow, and will not raise any objection to the continuance of the injunction. In all probability the trial will be fixed for March 15, before Mr. Justice Stuart. During the coming week the parties will exchange pleadings, and the aldermen may be examined for discovery.

Had the case been argued tomorrow, the plaintiff would have had the right to a postponement of the trial until April in order to give them adequate time for the preparation of their case.

STREET RAILWAY FIGURES FOR MONTH

Show Slight Falling Off From January But Big Increase Over Same Month Last Year.

February, as compared with January of the present year shows a slight falling off. In the month just closed, 329,419 passengers were carried by the department, and the total revenue was \$12,769.12. In January the number of passengers who took advantage of the radial railway service was 353,332, and the receipts totalled \$14,732.28.

As compared with February, 1910, there is an increase in the receipts and number of passengers carried, of over forty per cent.

Electric Light Figures.

An increase of thirty-six horse power in the motor load of the electric light and power department, took place during the month of January, representing three additional motors connected to the service mains. The new services represent forty-one additional horse power, but services disconnected offset this to the extent of five horse power.

As compared with the month just closed the load for lighting purposes was increased by the equivalent of 107.68 horse power. The total load was 1,357 additional candle power, offset by 950 candle power in disconnections. Twelve new blowers were installed, and seven fans for domestic purposes, one blue printing machine and two coffee presses.

Land Office Figures.

Official figures issued at the land office this morning, of the monthly receipts for the revenue for February, well in advance of previous months. There were 237 homesteads filed on, as against 228 in February of last year. There were 117 applications for patents, against 149 in the same month of last year. The letters received were 5380, and the letters sent were 5482.

YEGGEMEN FACE ELECTRIC CHAIR

Convicted of Murdering Massachusetts Factory Owner—One Bandit Committed Suicide.

Boston, Mass., March 2.—Some time during the coming week, probably at an early hour Monday morning, the grim State prison at Charlestown will be the scene of a double execution, the second of which has taken place in Massachusetts since the electric chair was introduced in this State. The prospective victims are Andre Isen and Wassil Ivanowski, two members of the desperate band of "Jussars" yeggemen that terrorized the city of Lynn last summer. Isen and Ivanowski were with a third bandit known only by the name of "Red," who took his own life after he was surrounded by the police shortly after he and his companions had mercilessly shot down and robbed Thomas A. Landreau, a wealthy shoe manufacturer, and James H. Carroll, a patrolman, who was guarding Landreau and helping him carry the \$4000 required for the weekly payroll of the shoe factory. Not only did the trio shoot down Landreau and Carroll, they fired three bullets into the former's body and ten into the latter's body, and shot a third bullet into the chest of the principal guard of the city. A posse of police and citizens gave chase to the bandits in the afternoon, but followed by the trio was killed. Isen and Ivanowski were seriously wounded during the hunt, but recovered and were tried and convicted on charges of first degree murder.

INSPECT INVENTION OF ALBERTA MAN

Edmonton Men See New Rotary Engine at Wetaskiwin—Will Revolutionize Steam Power If Successful.

"An invention that will revolutionize the world of the steam engine," is the way that Edmonton men describe the new rotary engine invented by H. Gall of Wetaskiwin, which they inspected during a trip to Wetaskiwin yesterday afternoon. In the party were city business men, headed by Don McManus, and including City Engineer Latorel, ex-Mayor Lee, A. G. Harrison, Geo. Montgomery, L. H. Fraser, and others.

Expressing their opinions to the City this morning, those who saw and inspected the engine, declare that it will revolutionize everything in the line of steam power. The machine they inspected is only a small one, but has immense power. It operates on the rotary system, and there is absolutely no jar while an immense amount of power is saved, and every bit of steam utilized.

Mr. Gall has been working for ten years on his invention and now has it perfected. Wetaskiwin business men are backing him up to a large financial extent in the invention, and he has hoped to organize a company to build and place it on the market.

Mr. Gall for many years was an engineer and mechanic in Boston, Montreal, and later in Seattle, from whence he came to Wetaskiwin.

NEW PREMIER HAS NAMED CABINET

List of New French Ministers Practically Completed—Policy Outlined At Special Meeting.

Paris, March 2.—Premier Morris sent the day in strenuous efforts to select his new cabinet. The list of ministers appeared to be crowned with complete success, and the list of ministers was sent to the Journal officiel. At last moment, however, came the unexpected refusal of Jules Jeanneney and Francois Pécqueur to accept respectively the portfolios of Justice and Commerce. This necessitated a hurried recall of the list.

Members of the Cabinet.

The new cabinet, so far as it is at present constituted, is made up as follows: Premier and Minister of Interior, Antoine Ernest Mercier; Minister of Foreign Affairs, M. Rougier; Minister of War, Henri M. Doreigne; Minister of Marine, Thophile Delcasse; Minister of Finance, M. Gaillois; Minister of Public Instruction, M. Steeg; Minister of Agriculture, M. Masse; Minister of Colonies, M. Messimy; Minister of Labor, Paul Boncour; Under Secretary of the Interior, Emile Constant; Justice and Welfare, Louis Malvy; Posts and Telegraphs, Chas. Chamet; Beaux Arts, Henry du Jardin Beaumets.

Held First Meeting.

The Premier has proffered the portfolios of Justice and Commerce to Senator Louis Doreigne and Jules Paret. Their answer will not be known until tomorrow. The new ministers met at the residence of Premier Morris and outlined the principal features of the programme which the Government will submit to the Chamber of Deputies. At the end of the conference, Mr. Morris said the ministry could be considered as definitely constituted, and there was no doubt that the list of it is now made up would be modified.

The appearance of Delcasse in the Cabinet has created considerable interest. Some of the newspapers declare that it would be better if he should remain in oblivion, charged with the maintenance of the peace of France and the peace of the world by attempting the isolation of Germany in connection with Moroccan question in 1905.

SOUTHERN MINERS WANT HIGHER WAGES

Conditions Will Not Become Normal Until New Agreements Are Signed After April 1

That coal mining operations in the south of the province are in rather an unsettled condition, owing to the fact that there have been several strikes recently, and the miners are demanding new agreements with higher wages, is the statement of Provincial Mine Inspector Sterling, who returned to the city yesterday, from a trip of inspection in the south.

"The conditions will not be settled," he said to a Capital reporter this morning. "Until the old agreements between the miners and operators expire on March 21st, and new agreements have been made. The operators who are members of the Coal Mine Operators' association, are meeting in Calgary today, to discuss new agreements with the union. The association includes operators in the Crow's Nest and in Lethbridge district."

"The Bellevue mines are not yet open," said Mr. Sterling, referring to the trial of Al. D. Truskett for the shooting of John D. Neely, a prominent capitalist whose home was in Lima, Ohio. Truskett shot and killed Neely in the Palace Hotel in the town of Canby, about twenty-five miles southwest of here, on the morning of January 7 last.

The slain man was president of the Lima Trust Company in his home city and was also the head of several large oil companies in the Kansas-Oklahoma field, including the Wichita Fuel Oil Company. The shooting was the result of litigation over an oil lease.

On the day before the tragedy Mr. Neely arrived in Canby. He was on his regular monthly inspection of oil and gas interests. The following morning he was sitting in his study, and after reading a letter, Truskett sitting opposite, watched him closely. When Neely sat up, Truskett hurried around to the sample room. As Neely passed, the door of this room was closed at him. One bullet passed through Mr. Neely's heart, and the other through his left arm. When the bullet entered the body, the prostrate man was dead. Truskett surrendered immediately and was hurried to the city for trial.

(Continued on Page Two.)

BILL MINER IS AGAIN IN CUSTODY

Captured in Georgia and Will Probably be Returned to New Westminster Prison.

Ottawa, March 2.—That "Old Bill" Miner, probably the most noted of all bandits of recent years in Canada was really captured and in the toils again at Galesville, Georgia, is the substance of a message received by Col. Sherwood, commissioner of Dominion police from a Washington Detective Agency at Chicago.

Col. Sherwood stated today that the identification was complete and that there was no doubt that Miner was one of the bandits captured in connection with the robbery of the Southern Railway Company at White Sulphur Springs, Georgia, on February 18.

Several thousand dollars were secured by the train robbers in this particular instance, and the day later three of the band were captured, among them being Miner.

Miner was brought back to Canada to complete his sentence. Col. Sherwood was asked:

"Certainly," he replied, "but the American authorities will try him on the charge they have arrested him on. They should try to convict him, and then send him back to Canada and incarcerate him in the New Westminister penitentiary again."

Will be Sent to Dartmouth.

Killed "Bill" Miner, the notorious train robber will, according to a report here he confined for some time in the Department of Justice. It is said he will be acquitted for charge against him in Georgia and delivered to the Dominion police. This is on account of his escape from the prison at New Westminister, B. C. The authorities feel that he would be safer here.

MURDER TRIAL TO COMMENCE TODAY

Kansas Man Charged With Killing a Prominent Ohio Capitalist.

Independence, Kas., Mar. 2.—The March term of the circuit court about to convene here will be made notable by the trial of Al. D. Truskett for the alleged murder of John D. Neely, a prominent capitalist whose home was in Lima, Ohio. Truskett shot and killed Neely in the Palace Hotel in the town of Canby, about twenty-five miles southwest of here, on the morning of January 7 last.

The slain man was president of the Lima Trust Company in his home city and was also the head of several large oil companies in the Kansas-Oklahoma field, including the Wichita Fuel Oil Company. The shooting was the result of litigation over an oil lease.

On the day before the tragedy Mr. Neely arrived in Canby. He was on his regular monthly inspection of oil and gas interests. The following morning he was sitting in his study, and after reading a letter, Truskett sitting opposite, watched him closely. When Neely sat up, Truskett hurried around to the sample room. As Neely passed, the door of this room was closed at him. One bullet passed through Mr. Neely's heart, and the other through his left arm. When the bullet entered the body, the prostrate man was dead. Truskett surrendered immediately and was hurried to the city for trial.

DEPOSITION OF F. W. MORSE GIVEN

Evidence of Former General Manager of C. T. P. in Wickenau Action Submitted This Morning.

Evidence by Frank W. Morse, former general manager of the Grand Trunk Pacific Railway, was submitted this morning in supreme court, in the case of the Grand Trunk Pacific Railway v. Wickenau. The evidence was taken from Mr. Morse in the last July.

The efforts of the plaintiff's counsel were directed this morning towards showing that when E. J. Chamberlain, general manager of the Grand Trunk Pacific, was in office, he was cognizant of all the previous arrangements relative to the letting of a contract to Alfred and Wickenau, which were made during Mr. Morse's tenure of office.

The case will probably go to the jury tomorrow. The defence has as yet submitted no evidence.

GROWTH OF BOY SCOUT MOVEMENT

Ottawa, March 2.—There will be 16,000 boy scouts in Ontario by next September," was the statement of different members of the Ontario council of the Boy Scouts of Canada, who met here today for the annual convention. In every province except Manitoba, the boy scouts movement has been organized with provincial headquarters, and one is in course of organization there as well. It was reported in each province the movement is to be pushed during the coming summer and it is expected that in each there will be corresponding success.

The annual meeting will be held in the railway committee rooms. Earl Grey chief scout, was present. Lieutenant Colonel Sir Sturges, president of the organization, presided and many of the commissioners from other parts of the country were present.

Lieutenant Colonel Sherwood gave a brief outline of the work of the organization. Captain Birchwood, secretary, explained how firm a foundation had been laid. Commissioner Hall, of British Columbia, gave a fine outline of the work in British Columbia. Other commissioners reported on the success of the movement.

STIFF CAMPAIGN IN WINDY CITY

Eight Candidates Seeking Office of Mayor—Graft and Vice Charges Leading Issues.

Chicago, Mar. 2.—Yesterday saw the close of one of the most exciting political campaigns Chicago has witnessed in some years. Tomorrow all of the parties will hold direct primaries for the nomination of candidates for mayor, city treasurer, city clerk and members of the board of aldermen. The mayoralty, which is for a term of four years at an annual salary of \$15,000, is the plum that is sought by eight aspirants, five Republicans and three Democrats. The name of one candidate each for the Socialists and Prohibitionists also will appear on the ballot, but neither of these parties is expected to cut much figure in the race.

The five candidates for the mayoralty are Charles E. Merriam, John E. Seully, John B. Thompson, Tom Murray and John F. Smulski. Mr. Merriam is a professor at the University of Chicago and a member of the board of aldermen. As an alderman he was chairman of the commission on city expenditures, whose investigations into the city administration resulted in the removal of several city officials in the past year.

John E. Seully, whose name appears second on the ballot, is a member of the board of aldermen and an experienced politician. The principal plank of his platform is opposition to the public service corporations.

John B. Thompson, the third Republican aspirant for the mayoralty, is known chiefly as the proprietor of a string of popular restaurants. He has mixed in politics for some years and once served a term as county treasurer. In his fight for the mayoralty he has the backing of Senator Lorimer's chief lieutenants.

The candidacy of Tom Murray, who is fourth on the Republican list, is not taken very seriously. Murray is a clothing merchant and far famed for his unique methods of advertising. He has never been a candidate for public office before.

John F. Smulski, the fifth Republican aspirant, is a veteran politician, who used to be state treasurer. He is said to be favored by Governor Denen and his loyal followers for the mayoralty nomination.

On the Democratic side there are three candidates for mayor, Carter H. Harrison, Andrew J. Graham and Edward F. Dunne.

Carter H. Harrison, who already has served four terms as mayor, wishes to equal the record of his famous father, who was elected five times. He had the Harrison candidacy is the notorious Kennan-Goughlin first ward

renewal, and a considerable portion of the Harrison administration. Andrew J. Graham, the second of the Democratic aspirants, is a West Side banker who has figured in Democratic politics for a long time but has not held office. He has the backing of the Democratic county organization. His campaign for the nomination has been notable chiefly for his lavish expenditures.

Edward F. Dunne, the third Democrat in the field, was elected mayor several years ago on a municipal ownership platform. Before that he was on the bench. When mayor he made a good record. He lowered telephone rates, and, although he vetoed seventy-five cent gas, an ordinance was passed members of the board of aldermen. The majority, which is for a term of four years at an annual salary of \$15,000, is the plum that is sought by eight aspirants, five Republicans and three Democrats.

W. A. Brubaker is the only prohibition candidate for mayor and W. E. Rodriguez has no opposition at the Socialist primaries.

In addition to the mayoralty keen interest is displayed in the aldermanic contests in many of the thirty-five wards. The aldermanic contests are more numerous than for many years. Particularly is this true on the Democratic side, where the bitter mayoralty battle has brought out Graham, Harrison and Dunne aldermanic candidates in nearly every ward.

The reform organizations are putting forth efforts to defeat alleged "gray wolves" because the next board of aldermen probably will have to decide upon several important municipal issues.

Fighting as leading issues in the mayoralty and aldermanic contests alike are graft and vice, cheap gas, lower telephone rates, subways and universal transfers, the smoke nuisance, and cold cars.

LABOR NOTES.

The policemen and firemen of Chicago are planning to ask the city council to provide for the payment of their salaries in cash. They declare that the salaries collect \$300,000 a year for cashing their pay checks.

Several hundred glass workers in Murano, Northern Italy, have been on strike since October of last year, owing to an alleged breach of agreement. The men are well organized and prepared to continue their struggle indefinitely.

Boston Lodge 251 of machinists has concluded arrangements with the Iron and Metal Workers' Union in New York for an exchange of membership cards. Any member of one of these unions with a paid up card, will be recognized in the other union.

Fifty-five persons of every hundred in the United Kingdom are "idle." That includes children, the aged and women not definitely engaged in trade or occupation. In Germany the figure is fifty-four, in the United States, sixty-one, and in France, forty-nine.

MURDER TRIAL TO COMMENCE TODAY

(Continued from First Page.)

The killing is believed to have been largely the result of a lawsuit that had long been pending between Trussett and the Wichita Pipe Line Company, of which Neely was president. According to his friends Trussett was of the belief that the company was trying to rob him of his rights. The litigation was over a lease to a tract of oil land a few miles south of Caney. Robert E. Goodman, a minor Indian, who owned the tract, sold his interest several years ago to Hugh Benson, an oil man, who later disposed of it to a local oil firm for \$400. Trussett paid this firm \$9,000 for the lease. Shortly afterward the Wichita Pipe Line Company claimed the lease of the tract, alleging that it had come into possession of it by lease from parties said to be interested in the Wichita company. The company asserted that the lease to Trussett was not according to law, as the Indian boy Goodman was not of age when he signed away his rights to the property. Trussett asserted that the pipe line company had used undue influence on the Indian boy, had kept him constantly under watch and had finally bought him from the lease on the day he came of age.

Public sympathy in this section is largely on the side of Trussett, owing to a great measure to the popular prejudice against the pipe line company and its affiliated corporations because of the methods they have pursued in the past. Relatives and friends of the alleged slayer have raised a \$20,000 fund and have employed eminent counsel to conduct his defense. The coming trial is expected to be one of the most notable that has taken place in this section of Kansas in many years.

TEXANS HOLDING DIAMOND JUBILEE

(Continued from First Page.)

On the afternoon of the first day George C. Childers offered a resolution that the president appoint a committee of five to draft a declaration of independence, which was adopted and the following committee was appointed: George C. Childers, James Gaines, Edward Conrad, Collin McKimney and Bailey Hurdman. On the following day, March 2, a committee was appointed to draft a constitution for the then contemplated republic of Texas. The celebration of independence was reported back by the committee, unanimously adopted, endorsed and signed by the delegates to the convention.

Declaration of Independence.

The adoption of the declaration of independence was a bold and hazardous step. The republic of Texas was founded without money or credit and under the most adverse conditions.

During the month of February the highest temperature was on the average 52. The lowest was on the second when 42 degrees below was recorded. Mean temperature for the month was 52.99. During the month there were 1641 hours of bright sunshine while the precipitation for the amount to 6.31.

On July 29, 1845, David G. Burnett, the first president of the new republic, issued his proclamation for the first general election, to take place on the first Monday in September, for the election of a president, vice-president and members of congress under the new constitution, which was to be voted upon. At the election the constitution was adopted and Sam Houston declared first constitutional president of the republic. The newly

elected congress met in the town of Columbia, on the banks of the Brazos river, on October 3, 1836, and organized itself by the election of Jesse Grimes as president pro tempore of the senate and Branch T. Archer as speaker of the house of representatives.

During the following eight or nine years Texas was almost constantly involved in war with Mexico. In the session of the congress of the United States following the election of James K. Polk to the presidency, resolutions for the annexation of Texas were introduced, passing the House February 25, 1845, and the senate on March 1, 1845, and the senate on March 1, 1845, they were approved by President Polk the same day. President Jones of Texas, called a convention, which ratified the act and prepared that famous organic law known as "the constitution of 1845." On the 27th of December, 1845, Texas became a state in the American union, and her admission was immediately followed by a war between the United States and Mexico. The first governor of the State of Texas was J. Pinckney Henderson.

WEATHER REPORT.

During the month of February the highest temperature was on the average 52. The lowest was on the second when 42 degrees below was recorded. Mean temperature for the month was 52.99. During the month there were 1641 hours of bright sunshine while the precipitation for the amount to 6.31.

MEDICAL CONFERENCE

Chicago, Ill., Mar. 1.—The seventh annual conference of the American Medical Association on medical education and medical legislation began at the Congress Hotel to-day with an attendance of prominent medical men from various points in the United States and Canada. The conference will remain in session three days.

First Clerk—"Isn't it true the way the shoppers are coming in? I never knew them to do so much buying so early."

Second Clerk—"It's fine, all right, with our cecidion."

"What is that?"

"It's Mrs. Jimpson; she did her buying so early that she's already commenced exchanging things."

The political boss of a small western city drove his buckboard at top speed down the main street on the morning of election.

"Hey, Johnnie!" he yelled to his son "sit down in the Fourth Ward quick! There's people down there votin' as they blame please!"

JUST for a few days longer only we will continue our Special Discounts for Cash. This opportunity is well worth taking advantage of; it means a big saving to you and the goods are all in Perfect Condition and Quite New stock.

BUY ACREAGE

MR. INVESTOR: Do you recognize that the city of Edmonton is on the verge of the greatest real estate movement in the History of the West?

Do you appreciate the significance of the Gigantic Drama of Development that is being enacted in the country to the north and west of Edmonton?

Do you realize that a new era has dawned for this city? That it has ceased to be a terminus and is now a metropolis?

Do you sense the fact that this year will see a new basis of value for all property in Edmonton and vicinity? If so, you will buy at once in

ALBERTA PARK

This is the property which will be the first to feel the effect of the rise in value.

This property lies on the western edge of the city limits. It is directly in the line of development which is changing the map of Edmonton.

Note what is happening in Inglewood, Hempriggs, Dovercourt and all the subdivisions in the western part of the city. Figure from that what will happen in Alberta Park and you will realize that this is a first class investment which offers a certain profit in the not distant future.

Alberta Park is laid out in five acre blocks, on a plan which makes re-subdivision easy.

Buy now at the present low prices and a year from now the other fellow will be coming to you to discuss price and terms.

WORKING ON CONTRACT TO MANUFACTURE PLOWS

FRANK VAN SLYKE'S INVENTION OF 25 YEARS AGO BEING TURNED OUT SUCCESSFULLY BY EDMONTON IRON WORKS—DR. ROUNDTREE OWNS PATENT.

Down in the smoke and grime of the big iron and steel foundries of the Edmonton Iron Works, Limited, on Kingston avenue, amid the clash and clang of the huge steam hammers, and the blinding glare of the blast furnaces, 10 or more iron and steel experts, with the assistance of \$10,000 worth of the very best machinery for the purpose, are working away on a big quarter million dollar contract to turn out 1,000 plows per year, on a patent which took a young Alberta inventor nearly 25 years to perfect.

The manufacture of these plows is an industry in itself. It has aided to an already large and growing industry a payroll of several more thousands of dollars, has given employment to scores of experts who have taken up their residence in the city, has made Edmonton the future center for the distribution of this new invention, which promises to become a popular product at a very rapid rate.

The contract under which the Edmonton Iron Works have now commenced to turn out these implements, calls for the manufacture of at least 1,000 of them every year for five years, at a price something like \$250.00, and with the prospect of the contract increasing to double and treble its size before the five-year term is up.

Twenty-five years ago, Frank Van Slyke of Red Deer, Alberta, found that the plow he was tilling his land with, were not suitable to the class of soil he had to work with. He set about himself to invent an implement that would meet what he deemed to be the requirements. For almost 25 years he worked without a great deal of success, but eventually turned out a patent. The result of his labors is now being produced in the Edmonton factory. Van Slyke sold his patent to Dr. Roundtree of Red Deer, who gave the contract to the Edmonton firm, and who will market the plows.

History of Plow Manufacture.
The history of plow manufacturing extends back several centuries. In the early ages, farms were cultivated by the scratching of the soil with benches of trees. That was the first step towards the cultivation of the land.

About the year 1682 a man of genius moulded steel into the shape of a wedge to break the soil thereby marking another stage in the development of land cultivation. From that time until 1855 there were a few changes in his wedge-shaped soil breaker but nothing materially revolutionary was done to improve the machine. In that year James Oliver started to make plows. There were machines resembling plows in use before that but their work was of a very poor quality and very slow. Oliver being a farmer, knew ploughs—and knew that there was not a good plow in the world. Where others saw and accepted he rebelled. He realized that a good plow should stay in the ground without wearing out the man at the handles.

He bought a plow factory and began to make plows as he thought they should be and he made good plows. They were suited to the land to which he was accustomed and from that time almost to the present they have satisfied the farmer.

But the man who hasn't been jerked up astride of the plow handles or been thung into the furrow by a balky plow has never had his vocabulary tested. When farmers came to Western Canada and began to break the sod of

the prairies trodden down solid by the feet of millions of buffalo that used to roam the prairies he began to discover that it was hard work and exceedingly slow even with the best of chilled steel plows. As the result of this difficulty in cultivating the soil of Western Canada is a new plow.

Plows and calves' tracks have been responsible for more rats on earth than any other agency. Because Jacob chumz in the single handle of the ancient Egyptian soil scratcher his followers have been clinging to that model ever since, tacking on improvements but never getting away from the primitive design. The original idea was to turn over the ground in furrows by means of a wedge-shaped animal scower which tortured Mother Earth, Father Jacob and his camel and their offspring for centuries afterward. With this soil the aim is to turn it over in furrows without kinks and elbows on top and hollow spaces below. But all soils are not being alike in formation or surface covering would not yield to the same cultivation and the struggling farmer invariably found himself in much the same position as his forefathers.

Such was the predicament of Frank Van Slyke of Red Deer, Alberta, years ago when he discovered that he could not get a plow which was suitable to the kind of soil in his district. Van Slyke had ploughed land so he knew what a good plow was. None of the ploughs which he could buy, although he realized that they were good ploughs, they were not suitable for him.

Without firing anyone with mechanical details, let the fact be stated that after 25 years of experimenting with ploughs, planing, dreaming, thinking, working, striving, often disappointed, perplexed and ridiculed, Van Slyke evolved a new make of ploughs. Many new ploughs have been made but they all differed in outward appearance only. Van Slyke's plow was different in those qualities which make a plow turn the sod in some particular direction. He understood that so long as the soil was half turned over leaving the grass exposed to the rain and sun no disintegration would set in. It should be completely turned over and the rain allowed to penetrate through the sod to the grass where the sun and air cannot penetrate. Then the grass becomes rotten and the ground grows rich.

The question was how to turn the sod over. The reason why the ordinary plow does not turn it over is that the edge of the furrow is square and instead of rolling over it stands on the square side. Van Slyke devised a cutting knife that split the edge of the last furrow leaving the side rounded and thereby causing it to fall over. Other improvements that he made are less important, although they add to the value of the machine. He made a mould board with a big flare that polishes in a kind of slot—clay of clump. The long slow turn lays a smooth furrow, making kinks and furrows impossible.

Van Slyke started to manufacture ploughs at Red Deer but the machinery was expensive and he was unable to start a very good business. After a year of almost useless effort he sold his patent rights and plant to Dr. Roundtree. The Dr. never had any experience in farming but he knew a good thing when he saw it. He took the plow to Calgary and exhibited at the fair there last summer explaining its advantages himself.

BUILDING PERMITS SHOW 100 PER CENT INCREASE

An increase of over 100 per cent. in the total building permits issued in the city, as compared with January of last year, is shown by the records at the building inspector's office. Last month, the total number of permits was 55, and the total value of the buildings to be erected, \$383,253.

In February, 1910, the total number of permits was 38, representing a value of \$29,030. Last month permits were issued for 35 residences at \$46,380; two offices, valued at \$11,000; nine stores, valued at \$15,120; three factories, of an aggregate value of \$10,250; one block valued at \$9,000, and 4 stables valued at \$875. A permit for hotel alterations amounting in value to \$900 was also issued.

FOR BALD HEADS

A Treatment That Costs Nothing If It Fails

We want you to try three large bottles of Rexall "33" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and should indisputably demonstrate to us what we know that we are talking about when we say that Rexall "33" Hair Tonic will grow hair on bald heads, except where baldness has been so long such long duration that the roots of the hair are entirely dead, the follicles closed and grooved over, and the scalp is glazed.

Remember we are losing our statements upon what has already been accomplished by the use of Rexall "33" Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. A Archibald.

BIG FIRE IN EASTERN TOWN

Richmond, Que., March 1.—The Duncan Block, on Main street, was practically wiped out by fire this morning, causing a loss estimated at between \$30,000 and \$40,000. The origin of the fire is as yet unknown. The principal losses are A. J. Reddard, Druggist, M. J. Palmer, J. O. Alexander, Hon. P. S. C. Macdonald, provincial treasurer, who lost his valuable library. Insurance has not been announced.

CLIFFORD SIFTON
DOES GO BACK
FOR RE-ELECTION

Allying himself with the protectionists, Clifford Sifton has announced to the Dominion his absolute departure from the ideas and principles which made him great.

Clifford Sifton's speech on the tariff question reverses all the principles on which he secured election in the first place and prominence later on. Sifton does not now represent Brandon, although he might make a fair representative for some protectionist city of the east. Environment has so changed his ideas that he does not see things as he once did, and certainly not as the farmers of the west do.

The fact that Sifton does not any longer voice the ideas of the majority of the electors of Brandon, but at the same time continues to be their representative, shows just how far wrong our Canadian system of representation is.

Without the recall, Sifton can continue to act as representative for Brandon in the Dominion house and the electors of that division have no recourse.

In Great Britain there is no recall, but there is a precedent of custom which serves the purpose almost as well. When a public man there changes his views on any of the leading issues of the day he invariably goes back to his constituency to ask for re-endorsement.

This is the position which Sifton should take at the present juncture. He cannot claim to represent Brandon until he has submitted his new view to the test of an election.

EDIT NO 2.....A.....e.....

PROVINCIAL
ADMINISTRATION
OF RESOURCES

The location of several thousand acres of oil claims in the Pelican Rapids district brings to mind the fact that there is at that point what is probably the largest gas well in the world; that for 13 years it has been emitting gas at the rate of three or four million feet a day and that no effort has ever been made to cap the well and conserve the supply.

Undoubtedly there is plenty more gas where the present flow comes from, but that is no reason why so much gas should be allowed to flow wastefully into the air and be absolutely lost.

Were the resources of the province in the hands of the provincial government instead of in the hands of the department of the interior at Ottawa it would be possible to get action on such matters as this short of thirteen years.

EDMONTON THE
MECCA OF THE
LAND-HUNGRY

With the opening of the three million acres for homestead in the country to the north and west of the city of Edmonton a new mark in history is recorded.

It is being pointed out by the Canadian Pacific land commissioner that all the prairie land has now been taken up and that the incoming settler who seeks a homestead will have to be satisfied with partly wooded country.

The fact is that practically all the land of any sort fit for cultivation has been taken up east and south of Edmonton and there is now no other place for the homesteader to seek a home except to the north and west of this city.

Edmonton now becomes the Mecca of the land hungry.

THE PANACEA
FOR FRICTION IN
THE CITY COUNCIL

Jess Dorman in the Calgary News-Telegram puts his finger exactly on the spot in the following very brief editorial paragraph:

If Edmonton had the principle of recall operating in their city, the question of whom should be dismissed, the Commissioner or the Council, could be quickly decided. Seattle, from whence Mr. Bouillon came, operates the recall, and only the other day the mayor of that city, elected by a great majority, was recalled by an even greater. Simple as is the principle of recall, it is astonishing that so few cities have adopted it.

JUST PARAGRAPHS

Speaking about a compromise, how would it do for Mr. Bouillon to leave the city hall until the case is settled. Undoubtedly on that condition the council would be willing to grant a delay of proceedings for an indefinite period.

The Alaskans who want to annex themselves to Canada recognize a good thing when they see it. Alaska now has no representative at Washington who has a right to vote; but think of what a hit Rex Beach would make at Ottawa as the member for Nome.

Judge Beck sets the council a rather difficult task when he intimates that they will have to prove the misdeeds of Mr. Bouillon. How, for instance, would they get onto the records of the court an exact copy of the look which the little czar gave Doc McInnis in the council chamber 10.43k on the 13th of February, just before leaving that apartment in tragic disgust?

"THIS DATE IN HISTORY"

March 2
1776—Congress appointed Silas Deane of Connecticut Commissioner to France.
1791—John Wesley, the famous Methodist preacher and missionary, died in London. Born in Lancashire, June 28, 1703.
1836—Texas proclaimed her independence of Mexico and adopted a Republican form of government.
1848—Louis Philippe fled from France to England.
1853—Washington Territory created out of the northern part of Oregon.
1866—Articles of impeachment of President Johnson adopted by the House of Representatives.
1867—Congress passed the Military Reconstruction Bill.
1875—E. W. Washworth, of Peekskill, N.Y., patented the watch case spring.
1890—The Dominion Parliament rejected a resolution providing for closer trade relations with the United States.

"THIS IS MY BIRTHDAY"

Henry Merion Howe, the distinguished metallurgist whom Oxford University in England has decided to honor with a degree, was born in Boston March 2, 1848, the son of the late Julia Ward Howe. He graduated from Harvard in 1869 and from the Massachusetts Institute of Technology in 1871, taking his course in mining and metallurgy. For some years after leaving college he was engaged in the business process of steel manufacture in Troy, N.Y. Later he devoted himself to the investigation of copper mines in Canada and Chile, after which he was appointed to a lectureship in the Massachusetts Institute of Technology. Professor Howe made this lectureship so important and invested it with so exceptional an expansion of knowledge and scientific inquiry that it attracted the attention of scientists in both America and Europe, and led to his appointment, in 1897, to his present position as head of the Columbia School of Mines.

KANSAS TEACHERS
ARE IN SESSION

Hutchinson, Kas., March 2.—Hutchinson, is entertaining for two days one of the largest gatherings of educators ever assembled in Kansas, the occasion being the annual convention of the Central Kansas Teachers' Association. Foremost among the prominent educators scheduled to address the convention are Dr. Charles H. Judd of the University of Chicago; President H. T. Campbell, of Goucher College, S. L. Palmer, of Hutchinson, Prof. W. L. Holtz, of the Kansas State Normal School; Prof. Raymond A. Schweizer of the University of Kansas; Henry B. Patterson, former state superintendent of public instruction of Michigan, and George L. Seelye, of Sterling, who is president of the association.

William Hawtree has joined the cast of "Dolly Madison."

DIPLOMAT IS NOW
75 YEARS OF AGE

History of Distinguished American Who Has Enjoyed a Brilliant Career.

Washington, D.C., Mar. 2.—John W. Foster, veteran diplomat, international lawyer, former Secretary of State of the United States, and counselor to ambassadors, ministers and diplomats generally, received the congratulations of a multitude of friends to-day on the occasion of the seventy-fifth anniversary of his birth. President Taft, former President Roosevelt, former Vice-President Fairbanks and a host of other men prominent in the official life of the nation were among those from whom messages of greeting were received.

Few men in America to-day have had a more distinguished career than General Foster and probably none has rendered his country more valuable services in varied capacities. His career is a striking illustration of the success that follows well-directed effort. Born in Pike County, Indiana, he received his education in the State University and the Harvard Law School. He was admitted to the bar in 1857 and pursued his profession in Evansville until the beginning of the civil war. He served from the beginning to the end of the war and was mustered out with an excellent record. He returned to Evansville and a few years later was appointed postmaster, which was his first official position. In the ten years beginning with 1873 he served successively as United States minister to Mexico, Russia and Spain. During the past quarter of a century General Foster has served the United States on many special missions

abroad. To this diplomatic experience he added that of Secretary of State, which position he held during the latter part of the Harrison administration, succeeding James G. Blaine. In official circles he is regarded as the best informed man in the United States, if not in the world, upon the details of the many intricate treaties which have been made by this country and other nations affecting boundaries or matters of internal as well as external concern to the governments of the world.

NEGRO FOR ASSISTANT ATTORNEY GENERAL

Washington, D.C., March 2.—President Taft today nominated Win. H. Lewis, of Boston, a negro, to be an assistant attorney-general of the department of justice. This is the first time that a negro has been named for such a prominent position in the department. Lewis, who is at present an assistant United States attorney at Boston, is one of the best known negro attorneys in the United States.

Special Bargain

CORRESPONDENCE

RECALL SYSTEM NEEDED

Editor Capital:

Dear Sir:—Now that the smoke of battle has cleared away, and the citizens of this city are awakening to their sober senses, it seems to me that in discussing the civic affairs, there is one fact that stands out prominently, and that is, our system is wrong.

Let us forget for a moment whether Bouillon is "in right" or "in wrong"—whether the council are "on to their jobs" or not—whether Bouillon is competent or incompetent—whether the council were justified in dismissing him or not—forget all insinuations and personalities that have been injected into this muddle—overlook all the harsh words, mud and innuendoes that have been stung by both sides.

The whole affair—and it is a disgraceful affair—is not doing the city any good. It is hurting us—giving us unwelcome notoriety, and unwholesome advertising—making us the laughing stock of the country, and creating an appetite for civic scandal mongers.

We want to forget this nightmare as quickly as possible, and at the same time so arrange that in the future such an affair cannot happen again in our city. What is the solution? Why? It's so simple that I marvel (that you haven't taken it up seriously as yet. But you will. Great reforms move slowly—they all do. It took two centuries of misrule to precipitate the events that led up to the French revolution, and history is replete with time-consuming efforts to accomplish great reforms.

On the platform last fall prior to the civic elections, along with Mr. J. G. McDonald, I advocated the recall system as practised in the city of Des Moines. You evidently did not think much of it then, as you turned us both down; but friends, if we had the recall, as far as the events of Monday night are concerned, civic affairs in this town would be as peaceful as they are in Sudan and Gomorrah. If the recall were embodied in our city charter, it would be up to the ratepayers (and we can fix the percentage of petitioning ratepayers at any figure we choose to) to petition Mr. Bouillon to resign. If they were not in accord with his regime; and under the charter he would have to resign and seek vindication or oblivion at the hands of the people through the ballot. Likewise the council. If we were dissatisfied with the conduct of Mr. Mould or Mr. Grinley, or any of the aldermen, we would only have to secure the necessary signatures of the requisite number of ratepayers and automatically force these gentlemen to test public opinion and seek re-election at the hands of the people.

Of course there are certain safeguards to prevent a few disgruntled individuals compelling an alderman or Commissioner to resign, and so to the expense of seeking re-election, but these details have all been thought of and worked out.

I would welcome an opportunity of explaining the entire system of the recall to you all. At the poorly-attended civic meetings last fall we could do but little to preach this propaganda to the many of you, but honestly for the good of us all, the sooner you learn of it the better, for then you will want it all the quicker, and then—and only then—will we have representative government by the people.

I am not speaking from general knowledge alone, for I've been in Des Moines where this idea originated, a number of times the past ten years, and I've seen it expand from an overgrown country town to a city, whose name is spoken of with reverence wherever civic government is discussed.

In Des Moines, to my knowledge, the recall has never been resorted to, the moral effect of it is sufficient—it hangs like the flaming sword of Damocles above the heads of commissioners and aldermen alike, and at present Des Moines enjoys the most honest and efficient government possible, I dare say.

Having myself lived in the city of New York for upward of a quarter of a century, and having visited many times the larger cities on the continent, I am, I must confess, conversant with boss rule, party rule, aldermanic control and the traffic in franchises, and when I tell you that the recall system is the proper form of government, to correct these abuses. I speak from a knowledge of municipal affairs. Don't by any means rush blindly into anything you don't thoroughly understand. Let our public press enlighten you all first as to the dogmas of this new and beautiful civic religion. You'll be converted quick enough—and when you understand it, let's all get together and petition our legislature through our two members in parliament, to amend our city charter embodying the recall.

Yours truly,

G. H. MAY.

ENGLISH ADMIRAL 18 VICTIM OF PARALYSIS

Suffered Stroke Yesterday Morning and Died Last Night—Was Commander at Portsmouth.

Portsmouth, Eng., March 2.—Admiral Sir Ashton Gore Curzon Howe, commander in chief at Portsmouth, was stricken with paralysis yesterday morning and died last evening. Admiral Curzon Howe succeeded Admiral Sir Arthur Farnham as commander in chief at Portsmouth in March 1910. He had served in the navy forty-eight years and during that period commanded many of the best known ships and saw a great variety of active service.

Prospective Tenant: "It looks as if that pipe leaked."

Agent: "That is nothing, sir. Easily prevented."

(Interval of moments.)

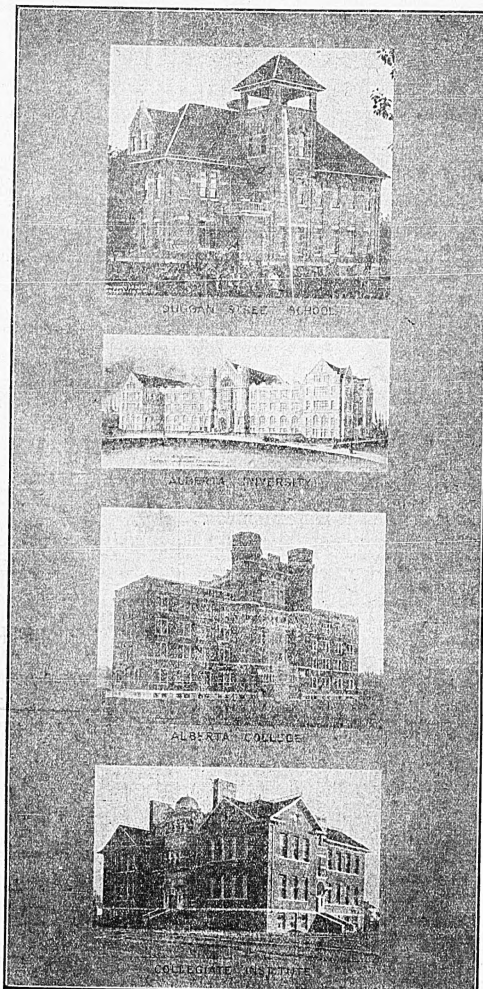

Tenant: "You told me that leak could be easily prevented. Will you kindly tell me how?"

Agent: "By keeping the eastern empty, sir. Perfectly simple."

The Following Lots are Reserved for Sale:

Lots 1 and 18 and 39 to 56 inclusive in blocks 29, 30, 31 and 32.
Lots 1 to 13 and 36 to 48 inclusive, block 25, and 1 to 13 and 44 to 56 in block 26.

The Educational and Residential Advantages of Parkdale

One of the most important considerations in the purchase of a residential property in any city is its proximity to the educational institutions. Especially is this true in Strathcona to which hundreds of families will be attracted by the superior opportunities offered to provide their children with an education. To these, the first question when in search of a lot on which to build a home will be, "Is it handy to the schools?" Parkdale answers this question in the affirmative, and always will. For the children, to whom it is important, especially in winter, that the journey be not too far, there is the beautiful Duggan Street school, one of the finest public schools in the province, right at the very corner of Parkdale. From the farthest lot offered for sale it is not more than a ten minutes' walk.

For the higher branches of education, Parkdale is admirably situated. University Park is within ten blocks of the property offered for sale, and University Avenue, destined to be one of the finest residential streets of the city, and it is certain to become the central playground of the city.

versity, the Catholic College or Alberta College, it is only a few minutes' walk from the property offered for sale in Parkdale.

A Park at Your Door

Next to schools, probably the most important thing for a family with growing children is the proximity to some spacious playground, and this question will have to be satisfactorily answered to the prospective purchaser of a residence property in Strathcona.

Parkdale can satisfy the most exacting. Within the past month the city has acquired the Agricultural Grounds at a handsome figure, to be utilized as a central park. Lots are offered in Parkdale which are less than one thousand feet from the new park. It is the intention of the city to improve this property, and it is certain to become the central playground of the city.

LEADERS SHOULD BOOST FOR NEW SIX CLUB LEAGUE

TO RETAIN ALLAN CUP FOR A YEAR

VICTORIAS, OF WINNIPEG, LOSE LAST NIGHT, BUT ARE VICTORIOUS ON TOTAL GOALS

Winnipeg, March 2.—The local victorias retain the Allan cup and the amateur championship of Canada, although they lost to Kenora last night in the final game of the series. Total number of goals count, however, and the locals came out ahead with a total of 16 to 10 in the series. The score last night was 5 to 4 in favor of the visitors and was by far a better exhibition than the first. The ice was somewhat soft and made the going hard, but both teams were on their mettle and a fine contest resulted. Two periods were played, Kenora being ahead at the end of the first half 4 to 3. Each team got one in the second half. The defence work of the teams was a feature.

A contract has been signed by the officials of the Detroit Americans with the Kenora, La., baseball club officials to obtain the training rights in that city for five years.

WATERLOO PROVES EASY.

Berlin, March 2.—Galt put it all over Waterloo in a fast game of pro-hockey here last night by a score of 8 to 0. The score does not indicate the play, this being the best hockey witnessed here this winter. The audience was crowded, there being 3500 in attendance.

INTER-CLUB BONSPIEL IS ON TONIGHT

SOME EXCELLENT CURLING EXPECTED IN SEASON'S BEST OF HOME PLAY.

The big Inter-Club Bonspiel, in which the best of home play is generally produced, will open tonight at the Capital City rink, five handsome trophies being up for competition. Play will open at 7 o'clock, the draw being:

B. S. McKenzie vs. Walbridge, J. McKenzie vs. Richards, Evans vs. Jellett, Stevenson vs. McRath, McDonald vs. Webb, Dickens vs. Dickson.

Thom vs. Turnbull, Dunn vs. Darling, Morris vs. Simpson, McGowan vs. Young, Martin vs. Fraser, Masie vs. Mercer.

Friday (7 p.m.)
K. B. McKenzie vs. Goudard, Bell vs. Klunard, Archibald vs. Edwards, Smale vs. McLeod.

Saturday
Gillespie vs. Thompson, Gould vs. Campbell, Gillespie vs. Thompson.

Following are the regular draws for the remainder of the week:

Tonight.
K. B. McKenzie vs. Smale, Jellett vs. Dickens, Gordon vs. Turnbull, McLeod vs. Fraser.

Friday.
Richards vs. Thompson, Webb vs. McDonald, K. B. McKenzie vs. D. S. McKenzie, Smale vs. Simpson.

Saturday.
Gillespie vs. K. B. McKenzie, Smale vs. Walbridge.

ONLY ONE FOR COMING SEASON, SAYS CALGARY SPORT WRITER

BILLY ISHERWOOD VOICES SENTIMENTS OF FANS IN DECLARING THAT IT IS UP TO THE PRESENT FRANCHISE OWNERS TO GET BUSY OR ELSE MAKE WAY FOR OTHERS WHO STAND READY TO BACK CLUBS IN CALGARY AND EDMONTON. — ECKSTROM DISPLAYING COMMENDABLE ENTERPRISE IN EFFORTS TO GET BASEBALL GOING.

"The big thing right now in a baseball way for this section is the proposed six club league, with Edmonton, Calgary, Lethbridge, Saskatoon, Moose Jaw and Regina. It's the one best bet and is far superior to that taking in Brandon and Winnipeg. While some may not think so, patriotic pride should have something to do with it and Winnipeg should be scorned as it deserves." This was the statement made yesterday afternoon to the sporting editor of The Capital by Billy Isherwood, sporting editor of The Calgary Herald, who came here to talk over the baseball outlook for the coming season.

And here's O. K. in the sentiments expressed by Mr. Isherwood. There's not a doubt but that Edmonton and Calgary simply must have baseball the coming season and this looks by far the best thing that has been proposed yet, seeing that the international is practically an impossibility for 1911 and Winnipeg has turned traitor and thrown down the two Alberta cities.

It is to the credit of C. J. Eckstrom that his love for the game moved him to take the step he did for the good of the sport. Many another man, sitting snug up in cozy chairs, say so when he takes the step he did for the good of the sport. Many another man, sitting snug up in cozy chairs, say so when he takes the step he did for the good of the sport. Many another man, sitting snug up in cozy chairs, say so when he takes the step he did for the good of the sport.

It may be that in certain quarters the six-club idea with Edmonton, Calgary, Lethbridge, Saskatoon, Regina and Moose Jaw will be scorned, but if this be so, it will not be because it is not believed it could be made to pay but because of feelings against Mr. Eckstrom through petty grievances. But its time such feelings were discarded and the baseball magnates got down to real work. It is this story feeling which lost Alberta towns the opportunity of having the International League go through and every possible effort should be made to see that there will, not be a repetition of this "lost opportunity" in connection with the six-club league that really looks like a winner and should be encouraged on every side.

club league. Baseball is no longer to be regarded merely in the light of the advertising it provides a city but is a cold, hard business proposition. In past years, it has been a case of a few sportsmen putting up the money for the amusement of the many, but these days are bygone. Baseball in this section may not be brought to a paying basis this year, but it will be but few seasons before it is self-sustaining and brings in flattering returns on the investment. Those who have held the reins in years past and have "forked up" the coin to meet the deficits have the opportunity of recouping their losses if they are willing to continue. But if they are afraid of dropping a few more dollars, then let them drop down and out of the club directorates. There are any number who stand ready to put up their money to push the game along. It is not believed that this situation exists in Edmonton, but if it does, then this applies to those on whom the shoe pinches.

Fans in Edmonton are hoping that Mr. Eckstrom will lose no time in calling his meeting together to talk over the details of the proposed league. The general belief prevails that the smaller towns, with the growth they have enjoyed in the last year and the increasing popularity of baseball, would turn out much larger crowds and could well afford to agree to a reasonable guarantee for their dates at home. A schedule could be framed up that would require teams to make but two trips away from home and this would effect a great saving in railroad fares. A salary limit might be placed at \$1,400 a month and each city required to live up to it to the letter. Under such an arrangement, it would seem the six-club league would be one which would not be a paying one for certain cities, would not prove too heavy a drain on their treasuries.

ST. PAUL IS WINNER.

Minneapolis, March 2.—The Phoenix hockey club of St. Paul was decisively beaten by the Port William, Ontario, aggregation at the Hippodrome rink by 15 to 2. The Canadians excelled in team work and it was apparent at the outset that the Phoenix players were unable to cope with the aggressive play of the visitors. Often the St. Paul players would sacrifice team work to make individual plays, which feature did much to defeat them.

RICHARD MADE A FAT PILE ON FIGHT JOKE

With a huge bundle of the "long green" tucked away down in his "jeans," the profits of the Philadelphia-Johnson race, Tex Richard, the Nevada mining and sporting man, is aboard a vessel bound for the Argentine Republic, where he is going into the cattle business. Before sailing, Richard, for the first time, made public his profits in the promotion of the Reno fight. "The cost of the fight including all expenses," he said, "was \$150,000. The receipts were \$270,000. The pictures have netted for \$255,000 and it was still in the picture treasury \$12,000. Jack Gleason and I each own a one-sixth interest in the pictures, and the picture trust owns the other two-thirds."

ADDITIONAL SPORT ON PAGE 7.

DULUTH DEFEATS FORT WILLIAM.

Duluth, March 2.—The North Star hockey team of Fort William defeated the Duluth curling club hockey team 10 to 4 in a game here last night. The Duluth team made the first two scores in the contest.

CAPITOLS FIND I. H. TEAM EASY

WIN THREE STRAIGHT BOWLING MATCHES—GIANTS AND ATHLETICS ARE ON TONIGHT

The Giants and Athletics play tonight.

QUALIFYING GAMES ARE ARRANGED

PORT ARTHUR AND PRINCE ALBERT ARE TO PLAY TO DECIDE THE CHALLENGER

Port Arthur, Ont., Mar. 2.—Arrangements were concluded yesterday for two games of hockey between the Port Arthur and Prince Albert clubs. These games will be held to decide which team shall go east to try for the Stanley Cup. A team from this city will go to Winnipeg on Saturday when the qualifying games with Prince Albert will take place in the auditorium rink there on the Monday and Wednesday following. The first game at Ottawa takes place on March 13.

GRANITE RINK RESULTS.

The results at the Granite rink last night were:
Freeze 12, McLeod 10.
Clark 12, Scott 8.
Goddie 7, Verner 5.
Provided the ice is in good condition the following rinks will play tonight:
Clark vs. Freeze.
Verner vs. Lancaster.

REAL ESTATE BULLETIN

The only demand for business property today is on Jasper Avenue, where some good propositions are under consideration for outside parties.

In residential property in addition to minor sales we turned over a very fine lying half block in North Inglewood on Alberta Ave., the coming great thoroughfare of the city.

These we expect to re-list immediately at reasonable prices, of which due notice will be given in this column, and we bespeak for them a very prompt sale.

ALBERTA PARK

This Suburb lies immediately west of the Bremner Estate, or one mile West of the City Limits, and is divided into blocks, suitable for re-subdivision into lots of usual size.

The blocks range in price from \$7,000 to \$1,800, depending on size and location, and this is a suitable investment for those desirous of letting money lie in land for a couple of years, until the growth of the city necessitates its re-subdivision. The terms are easy.

Today's Offerings Business Properties

- A choice lot on Central Jasper avenue \$80,000
- A business block on a full lot on Jasper Avenue, revenue-producing \$50,000
- A double corner on Namayo avenue, revenue-producing \$8,000

Residential Properties

- An 11 Roomed, fully modern house on Victoria ave. \$1,000 Handies \$6,500
- A 7-roomed, fully modern house on Vermilion avenue, close in, on easy terms \$4,250
- A lot on Thirteenth street \$2,200
- 2 Pairs double corners in Delton, one block from car line for cash \$1,200

Farm Lands

- 160 acres unimproved land close to Strone station per acre, only \$20
- 160 acres, improved, near Stony Plain Station, per acre, only \$10

Oil Stocks

We are still buying American-Canadian at best prices the market permits. If you hold any, phone us to 1854, for quotations.

Script

We have been compelled to advance the price of S. A. script to \$800, owing to the steady rise in Winnipeg prices. We carry a good stock of guaranteed script and can supply at once in business hours. We also hold a small supply of H-B. script.

Loans

Promptly negotiated at current rates in large or small amounts.

NEWS OF THE CITY

The Theosophical Society will meet this evening at 8 p.m.

Mrs. Robert G. Macdonald, 529 Sixteenth street, will not receive on Friday nor again this season.

The infant boy of Mr. F. W. Speer, 265 Kingston, died yesterday afternoon. Funeral this afternoon at 2:30 from the house.

A meeting will be held in the Y.M.C.A. parlour this evening at 8 o'clock for the purpose of organizing a Men's Mandolin and Guitar club.

An important meeting of the Alberta Humane Society will be held at the board of trade rooms on Thursday, March 9th at 8 p.m. All persons interested are invited.

Davis and Jackson report the sale of \$38,500 worth of Namayo avenue property during the past week. The property was purchased by local and outside capitalists. There has been a large demand for Namayo property of late, especially that lying north of the C.N.R. tracks.

Arthur W. Smith, auctioneer, accused of fraudulent conversion of monies, was this morning held for trial in the District court, the preliminary hearing being held before Police Magistrate Gowan. The charge is that George Stevenson, an agent, had placed furniture and household furnishings with Smith to be sold at auction, the property being valued at \$1,000, the allegation being that the money derived therefrom was not turned over to complainant.

SONS OF SCOTLAND

There was a good attendance at the Whist Tournament held between the Canadian Society and the Sons of Scotland Benevolent Association at the separate school hall last Tuesday evening. The games were close and evenly contested, the Sons of Scotland winning by the handsome majority of eleven games. Cards, dominoes, etc., were provided for those not taking part in the tournament and songs and music brought a most enjoyable evening to a close.

What about forming an inter-society Whist Tournament League in this city?

COMMISSION MEETING

At the commissioners' meeting yesterday much of the business of business which has accumulated in the city offices during the past week, was disposed of. The Canadian Northern Railway will be asked to pay \$209,21 for the loss sustained by the city on Dec. 29, when some of the company's wires fell across the street railway cables and tied up the system.

Word was received from the department of customs that the city could not recover any part of the sum of \$300 paid by them "s duty on the plans submitted by Engineer Potter. The full market value of the plans is the basis upon which the duty is levied.

MUSICAL CLUB WILL MEET ON SATURDAY

The Edmonton Musical club will meet on Saturday afternoon at 3:30 when the following programme will be rendered:

- Piano duet—"In the Morning," "Ave Maria," from Peer-Gynt-Sule L. Grieg, Misses Martin and Melsaue
- Song—"The Rose"
- (b) My love is like the River, Noel Johnson, Mr. Marrioff
- Bass solo—"Concerto in G Major, op. 10—H. Bickels, Mr. Marrioff
- Song—"Noncœur s'ouvre à la fois Saint-Saens (Sanson at Dallas) Mrs. Bowers
- Piano solo (a) Serenade—Ole Olsen (b) Scotch Poem—McDowell, Miss Armour
- Song—"Gounod, Mr. Butterworth
- Flute solo—Mr. Strachan
- Song—"Die Lorelei—Liszt, Miss Jmekaton
- Vocal Duet—"When the wind blows in from the Sea, Miss Davies and Mr. Eaton

NEW BRUNSWICK HOUSE MEETS

St. John, N.B., Mar. 2.—The legislature of New Brunswick met to-day and was opened with the customary formalities. The legislative programme comprises a considerable number of items and gives promise of a busy session, although at present no issue of paramount importance is in sight.

The proposed trade agreement with the United States will probably receive attention. One of the first acts of the legislature is expected to be an appropriation of \$50,000 to aid the fire-stricken town of Campbellton.

BOMB EXPLODED IN ITALIAN QUARTERS

Thirty Persons Seriously Injured by Falling Debris—Five Storey Building Wrecked

New York, March 12.—With a roar which brought the population of sixty tenements to their feet and sent them surging to the streets, a dynamite bomb, exploded early today in the heart of the east side Italian colony, blowing off the greater part of the front of a five story building and breaking every pane of glass within a radius of three blocks. Thirty persons were injured by the falling debris and broken glass.

Osteopathy cures disease. No drugs.

MINERS RETURN TO WORK.

Frank, Alta., March 2.—The miners of this district who have been away from work for two weeks on account of differences with the operators have returned to work under orders from the district president pending the completion of the agreement which is to go into effect on April 1.

ICE MAN COMING

Kansas City, Mo., Mar. 2.—Several hundred ice manufacturers and dealers gathered in Kansas City to-day for their annual interstate convention, the sessions of which will be devoted to the consideration of various trade questions and will keep the delegates busy until the end of the week. The States represented at the convention include Texas, Colorado, Kansas, Iowa, Missouri, Oklahoma, and Arkansas.
